

Get what you need to get back to business

In order to get back to work, businesses need to adapt to new ways of doing business. This means making sure you have all the necessary tools to keep employees and customers safe. No matter what kind of business it is, changes will need to be made, and these checklists are here to help.

General offices

Offices will need some extra supplies in the months going forward. It's important for employees and guests to feel comfortable and safe while in the building, using community spaces and in their work area. This checklist will help let you know what products will help get the office up and running again.

Prepare to safely bring back employees

As companies start to reopen, it's important to make sure your business is prepared. It is recommended that people continue to follow the following practices to ensure a safe and smooth transition:

- › Social distancing (specifically, staying 1.5 meters away from others when you must go into a shared space)
- › Frequently washing hands or use alcohol-based (at least 70% alcohol) hand sanitiser when soap and water are not available
- › Wearing cloth face coverings
- › Avoiding touching eyes, nose, and mouth
- › Staying home when sick
- › Cleaning and disinfecting frequently touched objects and surfaces

We have a variety of products that will help you follow these guidelines, and they can even be branded to your business to encourage camaraderie amongst employees and your surrounding community.
